Extraordinary Increase in the Reserves Shown in the Weekly Bank Statement.

STOCK MARKET FIRMER

Steel Bars Advanced \$1 a Ton -Much Interest in the Pennsylvania Primaries.

The most notewor thy development 1617s in the financial district yesterday was the ensational change, and in a few was the 21 direction, that occurred in the weekly list bank statement. News of this, of course, was not made public until after the close of the stock market and list bank statement. of the stock market and therefore the last of the stock market and therefore the last of the stock market and therefore the last of the la matter was not in any way a market factor of the day. The character of the 10614 return indicated with great emphasis the truth of what responsible banking 3514 interests have all along maintained, that i the underlying financial position was one of exceeding strength and that recent weekly statements of the Clearing House institutions have been so affected by superficial and temporary influences that they did not reveal the actual state of affairs. In yesterday's statement the average figures reported the extraordinary decrease of \$28,087,000 in loans, which with an increase of \$2,000,000 in specie made an average increase in the specie made an average increase in the reserve of \$8,133,000. In the actual figures $170 t_2$ almost as great a decrease in loans was exhibited along with an altogether unexpected increase of nearly \$8,000,000 in cash. This caused an increase in the actual reserve of over \$13,000,000.

In the stock market in the first hour of business there was a continuation! of the sharp selling movement which was in full progress on Friday. Then the usual recovery in stocks by specu-lators for the fall set in and this process 3012 left the final prices of the greater number of issues at advances over those of the day before. An advance of \$1 a ton in the price of steel bars by the Carnegie

Steel Company was announced, and least steel company was announced, and least steel company was still great in the result of the lass interest was still great in the result of the 188 Pennsylvania primaries, which were tak-ing place during the day. At the same fluence of occurrences of this kind.

rongly to exagge a substitution of selling in the market was a sub provocative of selling in the market was the news of the result of the Illinois primaries, coming as it did when conditions 115 were ripe for a speculative fall in stocks: 11234 and recovery from this drop was prevented by the natural anxiety felt as to the outcome of the Pennsylvania pri- 1207, 12114 maries yesterday. Meantime every other development has been favorable to the stock market and to business and financial optimism. Improvement in business 110 is taking place in almost every quarter. Last week's record of bank clearings! again made a far better showing than in the corresponding week last year, the Financial Chronicle's figures making an increase of 20 per cent. on the part of all cities. The picking up is especially 166% notable in the textile trade and it is worthy of remark, too, that the same improvement in this line is going on in Germany. where six months ago there was great

A general review of the week must also include the release given to industrial life in England by the termination of the coal strike there. Financial and Fusiness enterprise that has been held in check in the country for over a month is once and the whole world is feeling the effect.
Toward the close of the week there was
some discussion in English financial circles as to the possible adverse effect of the introduction and passage in Pariia
ment of the new home rule bill for Ireland. But the upshot of it all was that
people in England were too busy to spend
nuch time with talk or fears of this sort.

It is highly possible that before long the
course of industry in our own land.

The rather upsyrected returns of the

course of industry in our own land.

The rather unexpected nature of the event of the Illinois primaries, poor wheat crop reports, talk of higher money rates and labor controversies succeeded in bringing about a reaction in stock market prices in the latter part of last week. These, however, were only the ostensible causes of the movement. A recession in the market has been overhanging for the market has been overhanging f in the market has been overhanging for some time for general reasons incident to the rapidity of the recent advance. There is no trouble at all in the money situation, and at the end of the week the plain test may of money rates was to decline under a flood of offerings from interior cities caused by the slightly higher price bid here for financial accommodation. Neither is there any real anxiety felt as to labor matters. While demands for higher wages have been numerously presented this spring there is no bad blood between the employees and employers, and the manifest disposition on the part of everybody concerned is to settle these disputes as quickly and decently as can be done. The Government's crop report early in the week only corroborated the fact that has long been known that wheat east of the Missispipi River has suffered some damage. sigher price bid here for financial accommodation. Neither is there any real anxiety tell as to labor matters. While demands for higher wages have been immercially presented this spring there is no bad blood between the employees. All the manifest disposes the man

GOSSIP OF WALL STREET.

Wall Street had news yesterday morning that seemed too good to be true. It was told that the Wabash-Pittsburg Terminal told that the Wabash-Pitteburg Terminal and the Wheeling and Lake Erie would soon exerge from receivership, that the position of these roads as concerns the also defunct Wabash would be defined and that the Wabash would go on its way without embarrassment from sit former discommoding neighbors and subsidiaries. An advance of 3 points in Wabash bonds increased the joy over the glad tidings, and as a matter of fact it was learned that there was some foundation for them. Mr. Wallace, who is chairman of the committee which has done the most work on Wabashwhich has done the most work on Wabash-Pittsburg Terminal reorganization in the past five years, sails for Europe this week, and of course would like to have his desk clean before his deporture. He has a reorganization plan all ready and a great many of the interested parties have agreed to it. The only difficulty is that the papers have not yet been signed, sealed and delivered. livered.

Eventually a settlement will be reached and it is of course, within the possibilities that Mr. Gould and his associates will put their signatures on the plan which now has the support of other interests and has up to the present encountered no objection from the Gould party.

The men who are working on the rehabil-itation of the Wabash have latterly done everything possible to expedite the Wabash-PARIS, April 13.—The market was heavy. The weakness in French rentes was somewhat discouraging. Russian industrial stocks were weak, while silver shares were strong. Rentes, 92 fr. 77½c.

BERLIN, April 13.—The market was weak on account of high money. Coal shares were depressed on fresh rumors of a new strike. one point of contention was settled. Now it is proposed that the Wabash take about \$2,000,000 in settlement of its other claims, be released from its liabilities on the Wheeling and Lake Erie notes and seek its fortunes without entanglement from its former subsidiaries. Bankers said yesterday that of Clearing House Banks.

The rapid progress made by the Clearing House banks in strengthening their reserves was exhibited in a striking way by the difference between the average and actual figures as concerns the item of cash. According to the average figures the increase here was \$1.776,000 and according to the other form of the statement there was an actual increase on Friday night of \$7.930,000. In their weekly review of the dry goods trade Marshall Field & Co. of Chicago say that as a direct result of the recent strike Bank of Manhattan Mcchanics National. City weaving trade has absorbed so much select wool that there is a shortage in certain kinds of yarns used domestically. In view of those conditions, however, prices are said to be very low indeed. After a little more distribution it is expected that price. more distribution it is expected that prices

more distribution it is expected that prices will advance materially.

The Financial Chronicle put the country's total bank clearings for the week at \$3,456. - 715,763, against \$3,541,739,342 in the preceding week and against \$2,796,805,867 in the corresponding week a year ago. The increase over last year is 23.6 per cent. This centre's gain was 26.4 per cent., Boston's 17.9 per cent., Philadelphia's 45.9 per cent, and Chicago's 3.2 per cent. St Louis showed a decrease of 3.2 per cent. exactly the same amount as Chicago gained.

According to a Berlin cable the Prussian Government has decided to prolong the entire issue of \$50,000,000 short term 4 per cent treasury notes, payable in July, a large share of which was placed in the United States during the crisis of 1911. The Imperial Treasury Department, which redeemed \$5,000,000 of notes due April 1 and will redeem \$15,000,000 on July 1, has decided to prolong the balance of \$40,000,000 due at the latter date, thus making, together with the \$50,000,000 of Prussian notes mentioned, a total of \$30,000,000 of notes to be placed on July 1, the majority of which will be made payable in 1916. The Prussian and Imperial Government hope to extend the notes at par.

Lounsbery & Co. say of the Montreal market: "In many, cases records were broken on the Montreal Stock Exchange during last week. Thursday's transaction were greater than for any other day for more than a year. Canadian Pacific shares were the feature and advanced to the highest point the shares have ever sold at. Canada Cement stock sold over 30, which is the record price for the year. The cotton stocks were also in good demand and prices were higher than for some time past. Traction stocks were also favorites and in the cases of Rio de Janeiro Light and Power and Sao Paulo new records were made in the prices of the shares. On Friday, while the market continued active, prices were slightly easier, in sympathy with the New York
